To Whom It May Concern:

It gives me great pleasure to recommend The Auction Block to your company. I have worked with The Auction Block for the past 6 months. In that time, Obie Moore and The Auction Block team developed a successful liquidation plan for Greektown Casino Hotel. The plan includes prepare items for auction or consignment (inventory, tag, clean, reassemble, specification details and photograph each item).

The Auction Block has also set up and organized 2 warehouses for Greektown Casino Hotel. The Auction Block developed the floor plans to utilize the space in the best way possible. Set up shelving, transport items to the warehouse, place items in the proper location of the warehouse and inventory items with specifications.

I recommend The Auction Block with enthusiasm and would defiantly hire them again for future projects.

Sincerely,

Caroline Stinson
Purchasing Manager
